

## Product Description

The Comp 5 **Air** as our smallest floor speaker with complete Air-functionality.

**Air** not only means wireless, Air means a completely new approach to the HiFi / HighEnd topic.

This unique concept reduces the hardware requirements to a minimum. All you need is a pair of AUDIUM Air speakers. **No Audio-Sources, Players, Pre-/Power- or integrated amps are necessary any more.**

Music is being transmitted to the loudspeakers from your computer, tablet, smartphone or any cloud-app via WiFi (UPnP/DLNA and AirPlay® compatible). Or through the coaxial or optical Toslink Input (both up to 24/192k) at the Master loudspeaker. The master then outputs the music signal through its digital output in full resolution to the slave.

The processing of the audio signals is done completely in the digital domain - from the source, up to the digital power-amp which forwards the amplifier signals into the full-range driver / woofer. Completely without any passive components of changes between digital and analogue domains with maximum resolution, and no losses. Also volume control is done digitally, but with a calculation accuracy of 48 Bit (!). A resolution that will break any argument against a digital volume control!

This is all done by the amplifier module which has been developed by AUDIUM . It drives the full-range driver and the woofer. The integrated DSP replaces a classical crossover network and allows various adjustments of the loudspeakers to your listening room and your personal audible demands.

The Comp 5 **Air** from AUDIUM - ahead of the times!

White    Zebrano    Cherry    Mocca    Black

## Features

- **WiFi/Digital Version**
- Full-range
- Oval 6x9" Woofer
- Downfired Configuration
- Bassreflex
- Active Module 130W
- RCA Input
- SPDIF opt. Input
- SPDIF coax. Input
- SPDIF coax. Output
- External Power Supply 150W
- DSP
- Room adaption
- Bass-Management
- AUDIUM App
- Genuine Wood Veneer

## Technical Data

- Full-range Ø: 76 mm (3")
- Woofer Ø: 150 x 230 mm (6" x9")
- SPDIF Rate: up to 24/192 (opt+coax)
- Amp Power Full-range: 30W
- Amp Power Woofer: 100W
- Power Supply Output: 36V/150W
- Dimensions (WxHxD): 215 x920 x 290 mm
- Weight: 20 kg
